TITLE : CATALYST INSTALLING STRUCTURE
FOR MOTORCYCLE

ABSTRACT : PURPOSE: To provide a catalyst installing structure of a motorcycle by which a catalyst single body can be easily replaced.

CONSTITUTION: In an engine exhaust device 28 of a motorcycle composed of an exhaust pipe 30 connected to the downstream side of an engine and a muffler 31 connected to the downstream side of this exhaust pipe 30, the muffler 31 is constituted as a duplex tube structure composed of an inner cylinder 32 and an outer cylinder 33. Then, the inner cylinder 32 and the outer cylinder 33 are made freely mountable and demountable, and a catalyst 40 to purify exhaust gas is installed in the inner cylinder 32 so as to be freely mountable and demountable.
